Welcome to the 74th Annual Meeting of the Academy of Management

On behalf of the thousands of AOM members and staff who have worked diligently and effectively to organize the 2014 program, we welcome you to Philadelphia for the 74th Annual Meeting of the Academy of Management!

With more than 18,000 members from over 110 nations, the Academy's vision is to inspire and enable a better world through our scholarship and teaching about management and organizations. Supporting this vision is our mission, which is to build a vibrant and supportive community of scholars by markedly expanding opportunities to connect and explore ideas. Our Annual Meeting provides a forum for us to:

- connect with each other
- share our research experiences
- exchange teaching resources
- discuss the implications of our work for practice
- create and renew friendships
- develop our professional skills and contacts.

Our Theme for 2014, "The Power of Words," encourages us to consider the effect of *words* – our own and others' words -- on individuals, teams, organizations, nations, and even global systems. *What* and *how* words are communicated determine the results they effect. Leaders and those aspiring to become (or remain) leaders have therefore long understood the need to manage communication style as well as substance. Over time as new digital (Internet-based) technologies have become available, what and how people say things has grown more important and thus more challenging. This is because new digital technologies enable words (sometimes without the original communicator's awareness) to be *ported*, in an instant, to and from potentially broad audiences in unknown locations. Understanding the effect of words and their portability is therefore a critical task facing managers as well as management scholars.

The issues raised by our theme are of theoretical, empirical, and practical importance across the full range of Academy divisions, interest groups, and stakeholders in scholarly enterprise.

The Annual Meeting offers many opportunities to participate and learn during five full days of activities and events, divided into three parts:

- Friday and Saturday: Professional Development Workshops offered by 34 divisions and interest groups, and special committees;
- Sunday: All-Academy Theme Program presenting symposia and PDWs on theme-related topics;
- Sunday: The second Teaching and Learning Conference (back by popular demand from its inaugural offering a year ago): TLC@AOM is an Academy-wide teaching conference in response to the growing teaching related-needs of AOM members around the globe.
- Monday Tuesday: The scholarly programs comprised of symposia and paper sessions.

We invite you to the following exciting events, which are free and open to all registrants:

Academy of Management Presidential Address and Awards Ceremony

Sunday, August 3rd at 8:30 am - 11:00 am in the Pennsylvania Convention Center Grand Ballroom AB

- Enjoy coffee and pastries
- 2014 Program Chair's Introduction of this Year's Meeting Theme

All-Academy Reception

Sunday, August 3rd at 6:00 pm - 8:00 pm in the Pennsylvania Convention Center Grand Ballroom AB

The Annual Meeting celebrates the work of all who participate in it. The 2014 Call for Submissions elicited 6268 paper submissions, 370 unique symposium submissions, and 626 Professional Development Workshops proposals. Our records indicate that 5900 volunteer reviewers provided the effort to evaluate these submissions. We thank all of you for helping us create the final program, which involves nearly 9500 individual participants.

We hope that you enjoy your time and experiences in Philadelphia, a city where the power of words was demonstrated on July 4, 1776, when the U.S. Declaration of Independence was signed. Today, many cultural traditions, culinary joys, museums, arts, scientific inquiries, and businesses thrive in Philadelphia. Thank you for all our valuable discussions about research, teaching, and practice during both the formally scheduled sessions and informal, spontaneous conversations. To enable discussions, this year's Academy features more seating areas in the conference hotels and conference center. We look forward to connecting and learning from all of you in Philadelphia.

Our Theme for 2014, "The Power of Words," encourages us to consider the effect of words – our own and others' words – on individuals, teams, organizations, nations, and even global systems. What and how words are communicated determine the results they effect. Leaders and those aspiring to become (or remain) leaders have therefore long understood the need to manage communication style as well as substance. Over time as new digital (Internet-based) technologies have become available, what and how people say things has grown more important and thus more challenging. This is because new digital technologies enable words (sometimes without the original communicator's awareness) to be ported, in an instant, to and from potentially broad audiences in unknown locations. Understanding the effect of words and their portability is therefore a critical task facing managers as well as management scholars. The All-Academy Theme-related PDWs and symposia-- at all levels of analysis—promise to heighten understanding about the many forms of words in organizations, the ways in which they facilitate or hinder the outcomes that various organizational stakeholders seek, and thus also, the actions that may help organizational stakeholders leverage the power in words to bring about positive changes!

CONFLICT MANAGEMENT (CM)

New, different and exciting! Junior faculty are invited to our new look PDW, Finding Value in Academic Life: A PDW for Junior Faculty. This PDW. organized by Nate Pettit and chaired by Matt Cronin, was tailor-made to address the tensions that junior faculty experience as they strive to balance the competing demands of their first faculty jobs demands that make it easy to forget the passion and vision that brought them to this career in the first place, and that is too easily lost in the routines of daily work lives. This PDW encourages junior faculty to step back and take stock of what brings fulfillment in this job (and what does not), to learn about and draw from the experiences and career paths of an esteemed set of panelists, and to use this knowledge to take steps (and risks) toward a career that maximizes one's personal and professional satisfaction. Starting at 8.30 am on Saturday, 2 August, let this 4-hour PDW help you recapture your vision and develop strategies to keep it alive!

Join us 9.45 am on **Monday 4**th for our first Showcase Symposium, *Trust development and repair in organizations*. Organized Emma Levine and Derek Harmon, this symposium solves important puzzles in existing trust research, points to promising directions for future study, and provides prescriptive advice for how to build and restore trust in organizations. Trust is essential to organizations and interpersonal relationships. Developing and sustaining trust improves leadership effectiveness, fosters cooperation, and reduces transaction costs. The four papers provide novel insights on the antecedents of trust. Jointly, they

investigate how individuals make trusting decisions when they have conflicting information about others' trustworthiness, they uncover new dimensions that influence trust repair, and they explore how trust can be strengthened over time.

Take a break for lunch or coffee, and come back at 1.15 pm to hear two award winning papers in one session, About Time: The Dynamic Nature of Conflict. Back-to-back, you can hear about The Directness and Oppositional Intensity of Conflict Expression (Winner of the CM Division's Best Theoretical or Empirical Paper Award) and about Conflict in the Kitchen: Temporal Diversity and Temporal Disagreements in Chefs Teams (Winner of the CM Division's Best Theoretical or Empirical Paper Award). Be sure to also check in on our other award-winning papers, The Effects of Lying on the Relationship Between Voice and Self- Perceived Status (Winner of CM Division Best Student Paper Award, Monday 3.00 pm) and Daily experiences of justice: A within-person, dynamic, and event-based perspective (Winner of CM Division Best Paper Award - New Directions, Monday, 9.45 am).

CRITICAL MANAGEMENT STUDIES (CMS)

This year the CMS Division has an engaging and provocative program of paper sessions, symposia and PDWs, with all of the Division's activities held in the Pennsylvania Convention Center (PCC). Our annual events include two socials for old friends and new, especially anyone curious about the Division, that are likely to be lively and friendly as usual. On Saturday, please come along to the **"Welcome and PDW Program Social"**, 6.30-8.00pm, sponsored by Durham University Business School, UK (#486) ; and on Monday we hope you can join us for our **"Main Program Social"**, 6.30-8.30pm (#1402), sponsored by University of Birmingham, UK.

The program starts with a number of PDWs focused on the 2014 theme *The Power of Words*, such as **"Power in Dialogue"** (#95, Friday 11.45-1.15pm, PCC 203 A), **"United We Speak"** (#204, Saturday 8.00-10.00am, PCC 111A), and **"The Linearity of Words and Oppressions of Linearity"** (#282, Saturday 10.15-1145am, PCC 102A), all bringing together leading scholars from a variety of divisions such as CMS, IM, and OMT. The Division also continues its support for emerging scholars through the annual **"Doctoral and New Scholar Consortium"**, sponsored by University of Portsmouth, UK (#21, Friday 8.00 am, PCC 203 A).

Within the main program we are pleased to present the CMS keynote (#654, Sunday 2.30-4.00pm, PCC 115a), which takes the form of a panel discussion involving distinguished critical scholars Marta Calas, Linda Smircich and Gibson Burrell. The panel will speak to the title "Metamorphoses: Paradigms and Since" and will engage the audience in a 'futurological conversation on the changing shape of organizational theorizing' that explores 'the rise of the monstrous and the end of the taken-forgranted'. As well as being widely known for their contributions to paradigms debate, our speakers share a commitment to examining inequalities and asymmetries of power in organizations, issues which are at the core of the CMS Division remit.

We also encourage you to attend the Division Showcase Symposium "What's a Corporate Elite To Do? Past. Present and Future of **Executive Involvement in Public Affairs**" (#1093, Monday 11.30-1.00pm, PCC 124). This timely event will be moderated by Academy President Elect Paul Adler, who convenes a panel (Richard Marens, Nien-he Shieh, and Mark Mizruchi) to examine the counter-intuitive arguments presented in Mark's recent book The Fracturing of the American Corporate Elite. Mark's argument that corporate leaders can and should play a more prominent role in public life is controversial at any moment in time, but is especially so now when public trust in is so low and competence so questionable. This groundbreaking book will frame the debate for some time to come. Those interested in developing critical perspectives on ethics, leadership, and organizations in society will find much of interest in the issues raised.

DIVERSITY AND INCLUSION THEME COMMITTEE (D&ITC)

We have several interesting sessions this year that address inclusion in the AOM in various

ways. Here are three general sessions to consider:

Diversity and Inclusion in the Academy: A Town Hall Meeting and Connections Cafe Saturday, August 1, 2:00-4:00pm and 4:15-5:45pm, Loews Philadelphia Hotel Commonwealth B

Please join us as we build on past years' efforts to make the AOM more welcoming and inclusive to its members. At the highly interactive Town Hall session, the D&ITC leadership will share progress since last year's Town Hall. Most of the session will focus on participant sharing of inclusion experiences in the Academy, ideas about how to make AOM more inclusive, and best practices at AOM for diversity and inclusion. Your input will allow us to work toward developing guidelines and tools for diversity and inclusion practices in AOM. Following the Town Hall, you are invited to connect with other members at our Connections Café social mixer.

<u>The Language of Inclusion (and Exclusion) at</u> <u>the AOM: An Interactive Workshop on the Power</u> <u>of Words</u>

Sunday, August 2, 11:15am–2:15pm, Pennsylvania Convention Center Room 120 B

This session builds on the mission of AOM's Diversity and Inclusion Theme Committee to provide learning and outreach opportunities across the Academy that foster a more diverse and inclusive Academy in which all members are involved in, and contribute to, its growth and success. In line with the conference theme, "The Power of Words," the goal of this session is to create an interactive dialogue to foster understanding of the ways in which language and its usage can create inclusion or exclusion. The structure of the session brings together members of the DITC and three additional panelists to share personal experiences and perspectives regarding the power of language to create experiences of inclusion or exclusion in the Academy of Management. The panelists bring content expertise to the session as well as their experiences in fostering inclusion or mitigating exclusion. Learning during the highly interactive workshop will be structured on three levels. At the individual level, participants will consider the connections between language and

identity and how language in relation to self can support or detract from inclusion. At the interpersonal level, the focus will be on the role of words and language in processes of inclusion and exclusion premised on labeling, classifying, and co-cultural exchanges (communication between non-dominant and dominant groups). Finally, at the organizational level, the discussion will center on how words and language become normative or institutionalized as well as on the challenges of displacing these taken-for-granted practices and the possibilities for fostering inclusion.

Late Night at the Academy

Sunday, August 2, 10:00-11:30pm, Loews Philadelphia Hotel Regency Ballroom A

Join us live at studio WAOM with host Dr. Q (Quinetta Roberson) as we celebrate brotherly (and sisterly) love. This fun, interactive social event will engage the audience with the invited guests (academicians, practitioners, poets and musicians) as we explore the power of words, the Phily lexicon, music, comedy, and games. There will also be a special tribute to Nelson Mandela for his contributions to shaping the thinking relative to diversity and inclusion.

ENTREPRENEURSHIP (ENT)

This year's program theme of "The Power of Words" has generated a great variety of high quality PDWs, Symposia and Papers sessions that have a range of interest not only for the Entrepreneurship Division members, but for whoever is interested in the area of entrepreneurship. Come join ENT for inspiring conference sessions. We would like to highlight more particularly:

This PDW advocates a clinical approach in general and a focus on psychological disorders as a means of developing entrepreneurship theory more specifically. With very few exceptions, psychological research in entrepreneurship has focused on the positives of entrepreneurs, irrespectively of theories applied, concepts used and phenomena studied. Theorizing and findings related to the motivation, action, and success of entrepreneurs tend to overlap with theorizing and findings related to the motivation, action and success of people in other walks of life. In this sense, entrepreneurship provides a context for general psychological theory rather than an arena for developing unique entrepreneurial psychological theory. An alternative route for developing psychological theory unique to entrepreneurship may be to take a clinical approach. Although a dominant force in the field of psychology, clinical approaches and the study of mental disorder are virtually absent in entrepreneurship research. To the extent that such research identifies mechanisms that are common in prior research, it will call into question the validity of how previously identified personal factors influence entrepreneurial outcomes (e.g., good health, positive psychological attributes).

PDW: "Social Ontology: Implications for Entrepreneurship Theory, Research and Practice" (#342)

School;

Presenter: Randall E Westgren; U. of Missouri;

Insights from social ontology - a recent set of advances in philosophy that focus on social reality and the emergence and deep structures of human social institutions - has shown great promise as a potential theoretical substructure for new theory development in entrepreneurship. This workshop offers an introduction to and structured discussion about social ontology with the individuals who are at the "sharp end" of this work, and framed by the editors of the journals that shape, support, and promote theory development in the field of entrepreneurship. We accomplish our objective in three "acts" - a primer on social ontology; presenting exemplary research in entrepreneurship employing insights from social ontology; a dialogue about the implications of an entrepreneurship pedagogy infused with social ontology: and a semiquestion-and-answer structured session exploring the implications for teaching and practice

GENDER AND DIVERSITY IN ORGANIZATIONS (GDO)

The GDO Division has an exciting preconference and scholarly program planned again this year! We are offering a diverse array of pre-conference workshops, some of which are developmental in focus (e.g., publishing workshop, consortia), and others which will provide opportunities for us to gather together to discuss important, emerging issues related to researching, teaching, and practicing diversity in organizations (e.g., how to engage in safe dialogues about stereotypes in the classroom, managing motherhood as an academic, addressing gender issues in business schools, translating scholarship to practice, and recognizing the intersectionality of diversity). Our scholarly program also promises to be great we're happy to be able to offer paper sessions

and symposia that cover a wide range of levels of analysis, methodologies, geographies, and dimensions of diversity.

Please be sure to check out our plenary session on Monday afternoon (3-4:30, Loews Hotel, Regency Ballroom B) when we will engage with leading corporate diversity officers about issues related to the All-Academy theme of "the power of words" within the practice of diversity. This session will be followed by the GDO Business Meeting (6-7pm, Lowes Hotel, Lescaze Room) and Social Hour (7-9pm, Loews Hotel, Howe Room). In addition to these events, we look forward to seeing you at the GDO Preconference Social Hour on Friday (6-7:30pm, Loews Hotel, Parlor1) and the GDO Welcome Breakfast on Monday (8-9am, Loews Hotel, Penn).

HEALTH CARE MANAGEMENT (HCM)

AOM members engaged in research in health care settings are encouraged to attend the sessions sponsored by the Healthcare Management division. On Friday and Saturday, the HCM PDW will host a variety of offerings for both emerging and established scholars, including two we highlight here:

"Theory Building for Healthcare Management Research" (Saturday, Aug 2 2014 9:45AM - 11:45AM at Pennsylvania Convention Center in *Room 110 A,B*) will focus on developing and testing theories. This PDW aims to enable participants to hone their skills in applying and critiquing organizational theories to generate new insights about the management and performance of organizations operating in the healthcare sector. A second goal of the PDW is to promote the stronger use of theory in empirical studies. This PDW will employ a case-based approach moderated by an expert panel to generate research guestions and hypotheses derived from the

perspectives of institutional theory, transaction cost economics, and high reliability organizing to examine the development and performance of Accountable Care Organizations (ACOs), an emerging organizational form in the U.S.

"Anatomy of an Article" (Saturday, Aug 2 2014 5:15PM - 7:15PM at Pennsvlvania Convention Center in Room 203 A). focused on turning your research results into publications, is back after a standing-room only crowd last year. This session will provide a hands-on tour of the components of a publishable paper with the explicit intention of helping developing scholars become better authors of peer-reviewed articles. Successful authors develop skills in both the art and the science of publishing. The art involves creatively framing a manuscript around an important topic, synthesizing the previous literature in a succinct and meaningful way, and communicating the academic and practical implications of the research. The science of publishing involves organizing the manuscript, presenting a logical flow of ideas, and providing a format expected by reviewers and editor in the field. This workshop will help participants, especially doctoral students and others interested in improving their publishing output, feel more confident about how to approach the writing of a paper for publication in a peer- reviewed journal.

Papers that have exceeded these criteria are featured in our Scholarly Program. In particular, the winner of the HCM Division's Best Paper Award will be showcased on Monday:

• "<u>High-Performance Work Practices in</u> <u>Healthcare Organizations</u>" (Monday, Aug 4 2014 9:45AM - 11:15AM at Pennsylvania Convention Center in Room 111 A) features the winner of our Division's Best Paper Award along with two other papers that have been designated as Best Papers for this

annual meeting. The four papers in this session consider issues such as engagement, empowerment, and organizational culture, and provide perspectives from both US and international settings.

HUMAN RESOURCES (HR)

The HR Division has put together an innovative selection of PDWs, a high quality set of Paper Sessions and Symposiums, and opportunities for networking. Here are three sessions/events that represent what we have to offer this year.

PDW: Experiential HR - A Potluck for Reviving and Expanding your Teaching Repertoire **Time:** Saturday, August 3, 3:45-6:15pm, Philadelphia Marriott Downtown, Rooms 407,408,409.

This PDW, chaired by Suzanne C. de Janasz and Caren Goldberg, provides those who teach HR an opportunity to expand their repertoire of exercises and pedagogies. Using a "potluck" format, attendees will be able to choose among a variety of HR topics and learn about successful experiential exercises. Participants will be able to select from among 12 table sessions led by faculty from around the world, in which presenters will provide a brief introduction to the exercise, run participants through some of the exercise, and discuss implications and modifications for different audiences and/or classroom settings.

Paper Session: Mediating Mechanisms in Strategic HRM Research

Time: Tuesday, August 5, 11:30am-1:00pm, Philadelphia Marriot Downtown, Grand Ballroom Salon I.

> This session, chaired by Kaifeng Jiang, features four papers that examine the "black box" relating HR Practices to Firm Performance. The first paper (Demortier, Delobbe, & El Akremi) found support for a path model linking skill-enhancing HR practices to business unit performance

through employees' ability and collective human capital in a sample of 46 business units. The second paper (Cogin & Boedker) found support for skills flexibility, human capital, behavior flexibility, and social capital as mediators explaining the relationship between high commitment HR practices and firm performance in a study of 77 Australian firms. The third paper (Lin, Sanders, Sun, Shipton, & Mooi), using a sample of 355 Chinese firms, found that customer-linking capabilities and customer satisfaction played a mediating role linking employee-oriented HR practices and firm performance. The final paper (Oh & Kim) examined the relationship between personality-based homogeneity within organizations and organizational-level job satisfaction and firm performance in a sample of 71 Korean firms. These four papers shed light on how and when a variety of HR practices relate to firm performance.

INTERNATIONAL THEME COMMITTEE (ITC)

The International Theme Committee (ITC) has planned another innovative and thoughtprovoking program for the upcoming 2014 AOM conference in Philadelphia. The ITC has put together a series of outstanding workshops that span teaching, research, and practice. Don't miss these sessions!! We would like to highlight in particular:

PDW: Fostering International Teaching and Research Collaborations (# 388) Time: Saturday, Aug 2 2014 2:00PM - 6:00PM Location: Sheraton Philadelphia Downtown Hotel in Liberty Ballroom A Organizer: Charles Wankel; St. John's U., Organizer: Olivia del Roble Hernández-Pozas; Tec De Monterrey.

This session is designed as a forum for sharing experiences and best practices of international collaborations in teaching and research as well as a venue to share prospective projects with a mind to acquiring collaborators from other nations. International collaboration has a storied history. The Silk Road nations developed collaborations several centuries BCE. The Greek, Roman, Persian, and Egyptian empires all fostered the sharing of learning. Some ancient centers, such as Timbuktu, have survived into our time. Some nations have rich traditions of international collaboration and have many strong centers of research. Other countries might have one institution that is the center of international collaboration or in some cases might have several competing centers that dissipate the resources available for such endeavors. By bringing together scholars from nations that have been underrepresented in cross-country partnerships with those from wellfunded and experienced institutions that our discipline of management will be enhanced. It is our hope that colleagues who have developed strong teaching exchanges and experiences will explain them to others here. Certainly, the current social technologies support virtual team meetings of students from all over the world. How international collaborations reflect and differ from domestic ones will be also a topic. The relevancy of the literature on research and teaching collaborations generally for international partnering will be importantly addressed. Though the session will be focused on collaborations among academicians and their students, it is hoped that ideas for having international collaborations involving NGOs,

government institutions, and businesses will be also suggested.

PDW: Developing an alternative Paradigm: Global Perspectives on Humanistic Management. (#217) Time: Saturday, Aug 2 2014 8:00AM - 10:00AM Location: Sheraton Philadelphia Downtown Hotel in Salon 4 Organizer: Michael Andreas Pirson; Fordham U.

The role of social embeddedness and the importance of the future do play a marginal role. In this PDW we wish to bring together global thought leaders that have worked on developing an alternative paradigm for management: humanistic management. In a first part, we will present the universal foundations of the humanistic paradigm and then highlight local and regional permutations of its theorizing and practice. In a second part of the workshop we will discuss the consequences of such an alternative paradigm on management scholarship, management education and management practice. Drawing on the Humanistic Management Network, we will have global representatives from Africa, Asia, North and South America, as well as Europe lead round table discussions leading to next steps and potential collaborations.

MANAGEMENT EDUCATION AND DEVELOPMENT (MED)

If you can only make three MED activities consider: a PDW where we share our syllabi and learn from each other how to make them effective and impactful communication tools for students; our Keynote speaker David Kolb's talk about experiential learning; and a paper session on how our traits and behaviors as educators influence the behaviors, satisfaction and performance of our students. Come along also to our Social on Monday at 6.30 pm in Loews Regency Ballroom B and join as a community, get to know new members, reacquaint with old colleagues and bring doctoral students into the engine of academia: the life long joy of being an educator – ever learning, never fully learnt! BYOS (Bring Your Own Syllabus): Sharing the Words We Use to Help Communicate What We Want (PDW Session # 68) Scheduled: Friday 10am Loews Philadelphia Hotel: Congress Room C

At the BYOS PDW there will be the opportunity to share our syllabi and learn as a community approaches to designing and using our syllabi in practice. Experiential Learning has been acknowledged by educators, researchers and practicing managers alike as a very effective approach to creating transformative and sustained learning experiences. In the past three decades. thousands of management professors and training professionals incorporated in their teachings David Kolb's cyclical model of Experiential Learning, with its four elements of Concrete Experience, Reflective Observation, Abstract Conceptualization, and Active Experimentation. David's books and articles have been applied by thousands of teachers and cited very frequently (Kolb's 1984 book alone generated nearly 25,000 citations). Instructor Traits & Behaviors: Student Behaviors and Evaluation (#1342 paper session) Scheduled: *Monday 4.45, Loews, Parlor 1*

Best Paper in Management Education Award Winner is here!

This paper session explores how the traits, behaviors and procedural justice approaches of us as instructors have an impact on the satisfaction, behaviors and educational outcomes of our students. These include a

survey of over 2700 UK students, from which we gain insights into how different instructor leadership approaches yield different learning outcomes. We learn how instructor's attitudes and commitment to teaching are associated with student satisfaction. Two of the papers in this session explore how procedural justice in grading plays a key role in the relationship between student evaluations and student behaviors: strong emotional reactions by students are associated with combinations of distributive, procedural and interactional injustices.

OPERATIONS MANAGEMENT (OM)

<u>Sustainability in Multinational Multi-Tier Supply</u> <u>Chains (PDW)</u> Saturday, Aug 2 2014 10:15AM - 12:15PM at Philadelphia Marriott Downtown in Grand Ballroom Salon B

We start our program with a PDW devoted to the problem of managing the complex issue of sustainability requirements in as global supply chain. The multi-nationality of many modern supply chains produces an environment in which firms and their suppliers will behave differently in their respective local contexts. This makes the alignment of sustainability goals and practices a challenging task. This PDW aims to move the discussion of sustainability in a global context beyond the static supply chain view and toward a more realistic view of the dynamic, multinational, multi-tier supply chain. This session provides an interactive panel discussion involving scholars drawn from many AoM

Divisions (OM, BPS, IM, ITC, ONE, SIM) to discuss recent developments in multinational supply chain management and explore opportunities for research. The organizers, Julia Hartmann (EBS Business School) and Joerg S. Hofstetter (U. of St. Gallen) will facilitate discussion with participants and a panel of scholars that include Lisa M. Ellram (Miami U.), Robert D. Klassen (Western U.), Paul Shrivastava (Concordia U.), Thomas Y. Choi (Arizona State U.), Donald Lange (Arizona State U.), Robert F. In keeping with the Division's commitment to building and leveraging scholar-practitioner links our program includes the Showcase Symposium, Scholar Practitioner Collaboration in Entrepreneurship Research, Education and Practice: What Works? (#188). This will occur on Tuesday, 3.00PM, Sheraton Philadelphia Downtown Hotel, Freedom E.

Our paper sessions include Discourse Language and Change (#1152) in which presenters consider how change might be influenced by discourse and how change may itself be a discursive practice. The session occurs Monday, 1.15PM, Pennsylvania Convention Centre, Rm. *116.* Other paper sessions consider a range of contemporary change-related phenomena. For example, the session Engagement and Organizational Change (#1058) will examine "employee engagement" from a variety of perspectives. It will be held Monday, 11.30AM, Pennsylvania Convention Centre, Rm. 103A. The session Practice, Actionable Knowledge and Learning for Change (#1151) will look at theory-practice links, engaged scholarship and how praxis might inform action research-based approaches. It will take place Monday, 1.15PM, Pennsylvania Convention Centre, Rm. 103A.

We hope these examples from this year's ODC Division program give you a sense of our many terrific sessions. See you in Philadelphia!

David Grant, Scholarly Program Chair and Julie Wolfram Cox, PDW Chair.

ORGANIZATIONAL BEHAVIOR (OB)

The OB Division has a varied and exciting selection of high-quality Professional Development Workshops (PDWs), Paper Sessions and Symposia this year. We hope you will join us for what promises to be a first-rate program that offers something for everyone.

ORGANIZATIONAL COMMUNICATION AND INFORMATION SYSTEMS (OCIS)

Making Meaning through Language

Promoting this year's conference theme, The Power of Words, this session considers the importance of language in organizations. The papers in this session draw from a variety of methodological approaches ranging from machine-learning techniques to narrative analyses. SOCIAL ISSUES IN MANAGEMENT (SIM)

The Social Issues in Management Division has an exciting program of PDWs, symposia, discussion paper sessions, and traditional paper sessions planned for this year's meeting in Philadelphia. The program covers a broad range of issues within the SIM domain while also including symposia that are co-sponsored with a variety of other divisions.

Our first PDW session is the Doctoral Consortium, which begins on Thursday evening and runs through Friday. Saturday, we have the SIM-ONE Junior Faculty Consortium in the morning followed by the SIM Manuscript Development Workshop (providing constructive criticism for nearly completed manuscripts), the SIM Research Incubator (generating and expanding on new ideas), and SIMian Speed Dating (connecting scholars with similar interests) in the afternoon. Then in the evening, we encourage everyone to join us for the annual SIM-SBE (Society for Business Ethics) Joint Keynote Speaker, featuring Jim Walsh of Michigan's Ross School of Business, followed by the SIM-SBE Reception.

We also have numerous amazing workshops on Friday and Saturday in addition to these triedand-true sessions. Need to venture out? Sessions on Friday morning and Saturday afternoon let vou explore social ventures, advocacy organizations, and low-income communities in the Philadelphia area. Want to learn to be a better reviewer, use films to teach ethics, or employ active learning methods? We have a session on these! Interested in building sustainable economies, alleviating poverty, or empowering shareholders? Got those covered too! And our PDWs also include intellectual shamanism, ecological citizenship, corporate political action, and sustainable supply chains. There's something for everyone in SIM!

On Sunday, we have four roundtables of discussion papers, a session for the best SIM dissertation finalists, a SIM Salon focusing on words that we should be using more in SIM research, and an evening reception. There are also *three* symposia submitted to SIM that are on the All-Academy program during Sunday: one on UN Global Compact, one on the power of words such as dignity and responsibility, and one on corporations, citizenship, and digital technologies.

On Monday and Tuesday, there are 39 traditional paper sessions and 30 SIMsponsored symposia, with something of interest to every SIM member in every session slot! From stakeholders to corporate political strategy to micro-level SIM research, the scholarly program (including roundtable sessions) is impressive in its reach and in the sophistication of the research to be presented. The symposia offer many opportunities to engage in discussion of interesting and important ideas, including topics as disparate as human trafficking, sustainability, and income inequality. Each morning will also start with a jumpstart, offering coffee and a chance to get together with friends old and new. The SIM Business Meeting is at 4:45 pm on Monday night, followed by the SIM Social at 6:30. Jamie Hendry (PDW Chair) and Harry Van Buren (Program Chair) are looking forward to welcoming SIM members and others interested in SIM research and teaching to the division's program!

 Copenhagen Business School (Sponsor of the AOM Shuttle Buses)

Copenhagen Business School

Founded in 1917 by the business community in Denmark, Copenhagen Business School (CBS) is one of Europe's leading business universities. It offers a wide range of business-oriented degrees as well as diploma programmes and short courses. In its research and education, CBS covers a broad range of subjects relevant to business in the modern world. We constantly strive to take full advantage of this scale and diversity by combining academic excellence with cross-disciplinarity.

Classical business disciplines with a twist

CBS has a strong 'business in society' profile. This covers classical management disciplines including finance and economics, accounting and operations management, marketing, strategic management and organization, but also disciplines that place business in a wider social, political and cultural context (such as law, languages, politics, business history, philosophy and psychology).

CBS has six world-class research environments which focus efforts in strategically-important areas:

- Financial Risk Management
- Open Innovation
- Sources of National Institutional Competitiveness
- Translation Processes and Translation Systems
- Strategic Management and Globalization
- Design and Governance of Economic Institutions

Two new world-class research environments will be established in 2014:

- Human Capital, Organizational Design and Performance
- Governing Responsible Business

One of CBS' goals is to develop research and education in areas that can have a significant societal impact. In line with this, we have established five 'business in society platforms' which operate on a cross-departmental basis.

The CBS 'business in society platforms':

- Sustainability with the purpose of improving understanding and practice concerning the interrelationship between society, business and the environment
- Public-Private focusing on dialogue across the traditional divides between the public and private sectors;
- Entrepreneurship expanding the traditional boundaries of entrepreneurship research by spanning and combining several fields including start-up venturing, social entrepreneurship and corporate entrepreneurship.
- Competitiveness dealing with the success of firms in a rapidly developing global environment;
- CBS Martime dealing with the maritime business' in an increasing globalised world.

CBS contributes locally AND globally.

Our Danish heritage has shaped the culture and identity of CBS. However, CBS operates very much as an open institution with an international mindset. This means that when it comes to research, education, stakeholder collaboration and dissemination we aim to develop our global perspective for the benefit of the corporate sector, locally and regionally. We see no conflict between meeting international standards of excellence and servicing our local community. Our very active participation in the Academy of Management over many years is one important demonstration of our strong international focus.

CBS is committed to developing open, two-way and beneficial relations with our students, stakeholders and collaborators. We believe that open and constructive partnerships are essential, both with researchers and other universities but also between students, businesses, public institutions, NGOs and policy makers.

For CBS, 'business in society' is about taking our societal responsibility seriously. But it is also about

being open to new ways of thinking and working – including new ways of delivering education. CBS has integrated elements of sustainability and business ethics into numerous academic programmes; raised awareness among students by encouraging the formation of student organisations engaged in discussing and promoting these issues; and launched new initiatives such as Responsibility Day and Sustainable Student.

Facts:

Full and part-time students: 20,819 Foreign exchange students: 3,474 Full-time faculty members: 681 PhD students: 239 Administrative staff: 621 Exchange agreements: 338

CBS provides Bachelor, Masters, MBA/EMBA, PhD and Executive programmes taught in English and Danish. CBS is the Danish member of CEMS (The Global Alliance in Management Education) and of PIM (Partnership in International Management). CBS has triple accreditation - by EQUIS (European Quality Improvement System), AMBA (Association of MBAs) and AACSB (The Association to Advance Collegiate Schools of Business).

Placement Services for the 2014 Academy of Management annual meeting will be located in Downtown Marriott, 1201 Market St., Philadelphia, PA 19107. Although the Online placement services are now conducted annually on a rolling basis, it is still necessary to indicate that you are interested in being a part of the annual Placement Services at the conference—our summer career fair. You must "buy" this option and a table when you put in your new ad beginning in June and continuing through the meeting in Philadelphia. We will provide assistance on-site in Philadelphia if you are unsure on how to place your ad and involvement in the summer career fair. Because we have a number of options, you will need to proceed to our website to determine your costs.

<u>Recruiting Schools and Organizations:</u> Please note that our summer career fair entitles you to have your ad visible to all applicants who sign up for the career fair, have the ability to see all the applicants on the Placement website, and allow you to rent an interview table in the Placement area where you can talk with prospective applicants. You may also choose to upgrade your ad to a sponsored version which will allow your logo and school information to be viewed by all applicants and not just those who selected you or your position type as well as having your position information displayed to applicants in the restricted waiting area.

<u>Applicants:</u> You do not have to pay extra for the summer career fair but you do need to register for the conference. If you have any problems registering please bring your information to the Philadelphia meeting and we will be able to help you. If you have not yet paid your annual applicant fee (\$35), then you will need to pay it before you can register for the summer career fair.

Please note that the registration fees for Placement Services are separate from the registration fees for attending the annual meeting.

Also please note that we use the term "career fair" here in the general sense of the term. If you come to Philadelphia anticipating arranging interviews and meetings upon arrival (as at a traditional career fair), you have already fallen significantly behind your fellow recruiters/applicants. Typically, both applicants and recruiters have established interview schedules via our web system prior to the conference, and we encourage everyone registered with Placement Services to be proactive in this process management.

Tables are provided for conducting interviews during the Academy of Management's meeting in Philadelphia. They are located in small-medium size rooms (12–18 tables/room) and will be available from noon on Friday, August 1st through noon on Tuesday, August 5th. The cost to reserve a table for the meeting is \$135. Reservations will be available online with the purchase of an ad at http://aom.org/placement/ beginning May 15th, on a first come first served basis. If space is available, some tables may be reserved on-site on a daily prorated cost basis.

Workshops to assist recruiters and applicants with the registration and interview processes will be held at the Conference.

Placement Activities

The interview areas offered by Placement Services are a very appropriate location for interviews, and the interview rooms are used by the great majority of schools conducting personnel interviews at the Academy of Management conference. However, interviews may also be scheduled and conducted in public, conversational areas available throughout the conference facilities. The Academy of Management and Placement Services are concerned about providing appropriate settings for conducting interviews. Appropriate settings include those that will accommodate individuals with disabilities and that do not have the potential of creating an awkward interview environment. Hotel guest rooms do not meet these requirements, and are considered to inappropriate settings for conducting recruiting interviews. Finally, please be sensitive to the concerns of others by avoiding actions or comments that may be perceived as uncomfortable, inappropriate, and/or illegal.

Excerpt from the Academy's Code of Ethical Conduct

The Academy of Management and its members are committed to promoting academic environments that are free of sexual harassment and all forms of sexual intimidation and exploitation. Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, and other visual, verbal, or physical conduct when:

- 1. It is implicitly or explicitly suggested that submission to or rejection of the conduct will be a factor in academic employment, admission, evaluation, or participation in an academic activity; or
- 2. The conduct has the purpose of interfering with an individual's academic or work performance, by creating an intimidating, hostile, or otherwise unacceptable educational or work environment.

The determination of what constitutes sexual harassment depends upon the specific facts and the context in which the conduct occurs. Sexual harassment takes many forms: subtle and indirect, blatant and overt. It can be conduct affecting an individual of the opposite or same sex, between peers or between individuals in a hierarchical relationship, or between teacher and student. Regardless of the intentions of the actor, the key question is always whether the conduct would be unwelcome to the individual to which it is directed.

New from Berrett-Koehler—Booth 717-719

Now published by Berrett-Koehler, this sixth edition integrates a stakeholder perspective with issues-oriented approaches so students see how business actions affect not only share price and profit but the well-being of employees, customers, suppliers, the local community, the larger society, other nations, and the environment.

Updated throughout, this edition features fourteen new case studies, new research findings, point-counterpoint exercises that encourage students to argue both sides of contemporary issues, and more. A full complement of instructor support materials—lecture outlines, PowerPoint slides, case questions, and a test bank is available online.

July 2014 • \$69.95 Paperback ISBN 978-1-62656-140-3 PDF ebook ISBN 978-1-62656-141-0

Resources are being depleted at an alarming rate. Businesses must now make resource scarcity—the "overfished ocean"—their primary strategic consideration. Using numerous case examples, Zhexembayeva offers five principles for innovating in this new reality.

June 2014 • \$27.95 paperback 978-1-60994-964-8 PDF ebook 978-1-60994-965-5

Big corporations can't seem to innovate like startups, because what keeps them successful is what holds them back. This is the innovation paradox. Davila and Epstein, authors of the bestselling *Making Innovation Work*, explain how established organizations can be restructured to overcome it—a new model they call the Startup Corporation.

July 2014 • \$29.95 Hardcover 978-1-60994-553-4 PDF ebook 978-1-60994-554-1

Positive leaders are able to dramatically expand their people's—and their own capacity for excellence. Here leading scholars like Adam Grant, Robert Quinn, Kim Cameron, Jane Dutton, Gretchen Spreitzer and more describe how this is being done at companies like Wells Fargo, Ford, Kelly Services, Burt's Bees, and many others.

"An important and very timely addition to the leadership literature."

—Edgar H. Schein.

Inspired by the peer-to-peer model of computing used in social networking and crowdsourcing, Baker offers a new way to lead: replacing leaders and followers with networks of "equipotent nodes of power"—peer leaders.

Social impact can now be evaluated with the same kind of precision achieved for any other organizational function. Epstein and Yuthas outline a systematic approach to deciding what resources to invest, what problem to address, which activities and organizations to support and what success looks like, even for goals that are extremely difficult to measure.

A BREAKTHROUGH TEXTBOOK FOR EXECUTIVE EDUCATION

Presented by the Kauffman Fellows PRESS

UNLOCKING THE IVORY TOWER: How Management Research Can Transform Your Business

Grounded Insight into a selection of themes... critical to business success...a valuable resource...very straightforward and concise.

-Rickie A. Moore, Past Chair, Management Consulting Division, Academy of Management A powerful and insightful view on essential themes such as leadership, international business, organization, and processes.

-Dominique Carouge, VP Administration & Management Global Leadership Team, Sanofi An Impressive Job...Even better, they translate that research into practical takeaways.

-Steven N. Kaplan, Prof., University of Chicago Booth School of Business

With extensive experience in business and academia both, Doctors Eric Ball and Joseph LiPuma act as field guides and interpreters, bridging the divide between scholarship and practice, and distilling relevant research while preserving the message of each thinker.

For research on strategy, leadership, entrepreneurship, organizational theory, international business, innovation, and finance, they provide real-world applications and relationships to the rest of the field.

Light on anecdotes and heavy on actionable research results, Unlocking the lvory Tower is an essential reference for both managers and students (Ph.D., DBA, and MBA).

Also offered as an online course on the Kauffman Fellows Academy, Udemy, and Proformative Academy platforms.

Wide-ranging and thoughtful compendium of leading management research.

-Mark Zupan, Former Dean, Simon Graduate School of Business, University of Rochester Delves into a variety of ... works from the major academic fields and critically evaluates their relevance...a rare—and fun dose of Intellectual history.

-Noam Wasserman, Harvard Business School Bridges those often-alien cultures [the 'intellectual' and the 'manager'] beautifully, and in doing so it stands as a major contribution.

-Rick Wartzman, Director, Drucker Institute
